EDUCATIONAL OPPORTUNITIES FOR GRADES 4K - 12

4K Science: Learning About Thunderstorms and Making Thunderstorm Clouds

Exciting News for 4K!

Beginning in the fall of 2023, our 4 year Kindergarten program will expand to 4 full days per week! If you have a child who will be four years old on or before Sept. 1, 2023, we have the perfect program for you!

Our program has been designed to enrich your child's education through hands-on learning experiences as well as social and emotional learning in a small interactive learning setting.

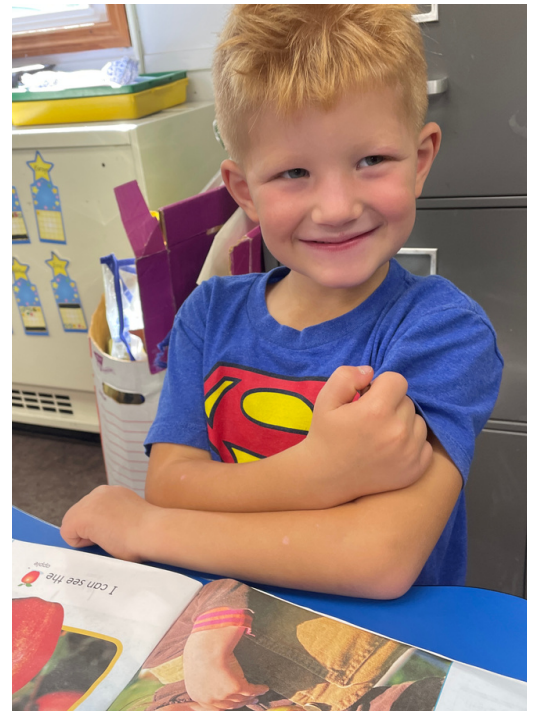

Child Development Day will be held on March 29 for any 2 1/2, 3, or 4 year old district residents. If you'd like to find out more about our 4K program or Child Development Day, call 715-946-3158, Option 2, for more information.

From the Principal

Our school district is different from others, not only due to our small size, which allows us to personalize student learning, but also because of our educational programming. Advanced courses for students needing challenges and/or college credit, interventions for students that need a boost in reading or math, and enrichment activities to encourage students' self-efficacy in learning are just a few things that make us proud of our district! In addition to academics, we have support systems to help each child grow not only academically, but also socially and emotionally.

The educational opportunities that are provided to each student are tremendous, and we'd be thrilled to welcome your child or children into our school community to directly experience the benefits of our closely knit classes and high level of student engagement.

-Jill Alexander, District Principal

7th Grade Geography Study of North America Concluded With Cooking a Meal of Poutine (Canadian Cuisine)

Family Like Atmosphere

Our school is unique because it functions like a family. Unlike larger schools, who are often overwhelmed with a large number of students, we take pride in knowing each child and their family. Our 1:13 student-to-teacher ratio is ideal for allowing us to personally know each of our students as we help them grow academically, emotionally, and socially.

Quality Education With a Private School Feel

Gilmanton Schools are able to provide a quality public school education with a private school feel. Our students are respectful and kind. The dedicated staff works as a team and takes responsibility for all students in the building and are devoted to supporting, caring for, and working toward the success of every student.

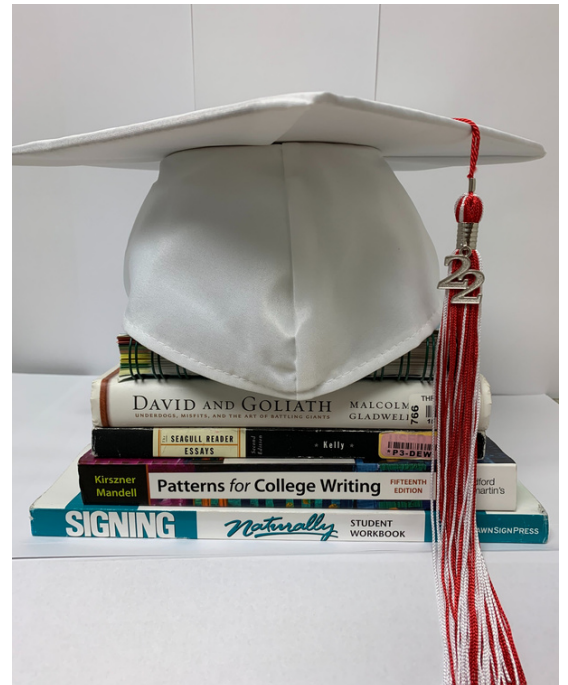

Individualized Learning

Our students are able to receive individual attention, allowing teachers to equitably provide the support and instruction each student needs to be successful. Because we know all of our students personally, we're able to support them in all areas of growth and development, whether it's through enrichment to challenge accelerated students, or provide interventions to help address learning gaps. Our overall goal is to provide your child or children with a path to help them be successful students while in school, while also paving the way for them to have a successful and happy life as an adult.

Scholarships Opportunities

Scholarship application season for seniors is now in full swing. Students are provided with resources to facilitate the application process. Scholarships applied for are national, statewide, and local. With a high majority of local scholarships, the community support for Gilmanton Schools is exceptional! Last year, Gilmanton graduates were awarded over \$112,000 in scholarships!

Summer School Coming In June

Registration will be open soon for Grades 4K-8 summer school. Classes are held from 8-2:30 daily. Bus transportation is provided. Summer School is open to all district resident students, ages 4 and up, even those not currently attending classes in Gilmanton.

- June 5-9: come to learn about volleyball, basketball, and other outdoor activities
- June 12-23: have fun with reading, math, science, and other learning activities

Call 715-946-3158, Option #2 to find out how to register!

Gilmanton School District Annual Census

Children 0-4 years of age (as of today) residing in your home
that are not already enrolled in school

Full, legal names of children, please. List oldest to youngest.

First Name	Middle Initial	Last Name	Date of Birth	Male	Female

Parents or Guardians (list only those living in household)

Circle One:

Father's Name _____ Father Stepfather Guardian

Mother's Name _____ Mother Stepfather Guardian

Address _____

Phone _____

Will your children attend school at Gilmanton? [] Yes [] No

If no, where will they attend school? _____

Why do we do take a census?

Our school receives funding for our library based on how many children live in our district, even if they do not attend school at Gilmanton.

What will we do with information you provide?

We update our list of children that reside in the district and report this number on our census report to the Department of Public Instruction. No names are reported. We also update our mailing list so that you can receive any mailings related to the school district. For those parents who will send their children to school at Gilmanton, we use the information you provide to generate a list of upcoming preschool and kindergarten classes.

How should you participate?

Fill out this census form and return to the school. Ways to return: drop off at school, fold (add postage) and mail, fax to: 715-946-3174, or email to: info@ghs.k12.wi.us.
