GILMANTON MS/HS - STUDENT ACTIVITIES CODE

Extracurricular Statement

Extracurricular activities here at Gilmanton are an integral part of the total educational program. We feel that participation in extracurricular activities will be an enriching and healthful experience in which physical, mental, and social growth will be stimulated through participation. Thus, to participate in extracurricular activities here at Gilmanton is not a right, but a privilege which carries certain responsibilities for the student, the organization, the school and community. Parents, students, and faculty please take time to read this booklet.

The Gilmanton High School Extracurricular Handbook includes the following activities and any other activities the Gilmanton Board of Education and Administration consider to be an extracurricular activity.

Discrimination Statement

The School District of Gilmanton does not discriminate against pupils on the basis of sex, race, religion, national origin, ancestry, creed, pregnancy, marital or parental status, sexual orientation, or physical, mental, emotional, or learning disability, or handicap in its education programs or activities. Federal law prohibits discrimination in employment on the basis of age, race, color, national origin, sex or handicap. The Wisconsin Fair Employment Law also prohibits discrimination in employment on the basis of creed, marital status, ancestry, arrest record or conviction record, or sexual orientation.

Extracurricular Code

The purpose of the extracurricular code is:

- A. To submit extracurricular policy and philosophy for administration and school board approval.
- B. To determine violations or changes in policies of general rules of behavior and rules.
- C. To discuss and take action against violators, such violators appearing before extracurricular Board of Control if they so desire.

Procedure of Due Process

The following are the procedural steps for the processing of Code violations:

STEP I - FOUR PROCESSES USED TO IDENTIFY STUDENTS WHO MAY NEED DISCIPLINE AND ASSISTANCE:

1. Confession
2. Written report signed by individual noting infraction.
3. Self referral
4. Parent referral

Initial report of referral should be made to the school administrator or activities director.

Determination of guilt will be made by the administrator or the activities director.

The administrator and activities director may make such further investigation as they deem necessary and will make a decision within two school days, or within seventy-two (72) hours if the offense occurs during a vacation period. They shall immediately notify the offender and shall telephone the parents/guardians of their decision and shall, not later than the day prior to the day when the penalty is to take effect, give to the offender and the parents/guardians a written notice of their decision specifying the specific violation, briefly noting the facts involved and the penalty imposed and of the review procedures of the WIAA.

STEP II - APPEAL TO AN ACTIVITY COUNCIL

The Activity Council shall hear appeals from any penalty imposed for violation of the Extracurricular Code or any controversy involving the issuance of awards.

The Activity Council consists of:

- A. A member of the Administration named by the District Administrator.
- B. One Board of Education member named by the Board President.
- C. One faculty member chosen by lot.
- D. One student representative from the activity of the appealing student - chosen by lot.
- E. One member of the Student Council named by the Student Council President.

The decision of the Preliminary Council may be appealed to the Activity Council. Written notice of the Appeal shall be given by the offender or parent/guardian to the Athletic Director within fourteen (14) school days after the receipt of the Preliminary Council's decision and imposition of the penalty. Offender will be under penalty of infraction until notice of appeal has been received. The Preliminary Council shall then ask for a meeting of the Activity Council within five (5) school days. The Activity Council hearing will be conducted as follows:

- A. The five members will select a chairperson for the hearing.
- B. Both parties involved will be given an opportunity to present their case. A maximum time limit agreeable to all parties should be set for each original presentation. All members of the Activity Council have the right to ask questions to clarify statements or to dissolve conflicts in presented evidence. If either party asks for rebuttal time, it will be allowed to continue only if it is done in a straightforward, evidence-examining manner.
- C. After the Activity Council has heard all evidence, it will render its decision (simple majority). The decision will be put in writing, and a copy of these proceedings and findings will be mailed to the offender and his/her parents/guardians.
- D. Parents/guardians will be required to acknowledge receipt of the decision.

STEP III - APPEAL TO THE SCHOOL BOARD

The finding of the Activity Council is final. However, an appeal may be taken to the School Board by the Athletic Director, offender and/or his/her parents/guardian. Written notice of the appeal shall be given to the Clerk of the Board within 14 school days after notification of the review in Step II. The appeal shall be heard within 30 calendar days and the Board will conduct the hearing and render a decision according to its own rules and procedures.

GENERAL ELIGIBILITY RULES FOR PARTICIPATION IN ALL EXTRACURRICULAR ACTIVITIES

Guidelines

1. A student's primary responsibility is academic attendance. A student must attend school ½ of the day of an athletic contest or extracurricular event to participate. The ½ day must include all afternoon classes unless prior clearance has been obtained from the principal.
2. Any student/athlete suspended from school for administrative disciplinary reasons will not practice or participate in athletic contests or extracurricular events during the suspension.
3. Detention and other administrative imposed disciplines take precedence over practice sessions. The student will report to practice after fulfilling these obligations.

ELIGIBILITY RULES

Academic Eligibility

This extra-curricular academic policy will govern student participation in all sports and other extra-curricular activities.

Objective: to maintain maximum academic progress in the classroom and encourage the continued learning and experiences gained through these extra-curricular activities.

The following standards shall apply to all students grades 9 through 12 and are applicable to all activities governed by the code.

1. All coaches/advisors shall attempt to provide opportunities to take care of any academic problems which students under their supervision may encounter.
2. All coaches/advisors will be responsible for monitoring the eligibility of their participants.
3. All participating students will be monitored on 3-week intervals during the 9-week grading period throughout the school year.
4. At the beginning of each sport season or activity, responsible individuals will provide team/membership rosters to all teachers. At each progress reporting time each teacher will place a D or F by the name of any student receiving said grades and this list will be forwarded to the principal's office. A master list of the students receiving a D or F will be made available to personnel supervising any sports or activities during that part of the school year. This list will be used to determine eligibility. Any student receiving one F at any grading period (9 weeks) will be ineligible to participate in at least the next (1) scheduled event of the activity

the student is to participate in. The student will be ineligible to participate in any subsequent events until the student has acquired verification from the teachers of the classes involved showing that the student is no longer failing said classes or any subsequent classes in a new grading period. This verification will be shown to the athletic director, coach, and principal. In addition, a meeting to address the academic needs of the student may be arranged between parents and appropriate staff members.

5. Any student receiving an F at the final (spring) grade recording time will be ineligible to participate in the first scheduled event in the fall and stated policy applies. This policy goes into effect 3 days after the grade is reported.
6. Students will be able to participate in practices during their time of ineligibility to participate in the actual scheduled events.
7. Students receiving special education services will be dealt with in accordance with state and federal laws.
8. Band and choir have extra-curricular requirements as part of their grading process and for this reason a student will not be dropped from class but will be ineligible to perform at any activities. Alternative assignments will be substituted for missed events to ensure a continued basis to gain credits.

Violation of Rules

1. All students involved in activities at Gilmanston School District are expected to exhibit conduct which reflects the ideals, principles, and standards of the Gilmanston School District. Behavior deemed inappropriate by administration will be considered a violation of the activities code. This includes, but is not limited to: displays of poor sportsmanship, swearing or abusive language during activities, violations of school policy as listed in the student handbook, and willful disobedience of rules established by the coach/advisor of a particular activity.
2. The Gilmanston School District recognizes the use of mood-altering chemicals as a significant health problem for many adolescents, resulting in negative effects on behavior, learning, and the total development of the individual. So, regardless of quantity, a student shall not use or possess a beverage containing alcohol, tobacco (in any form), or any substance defined by law as a drug or its look-alike. It is not a violation for students to possess and use drugs specifically prescribed for their use.
3. The student shall abstain from illegal activities. This provision includes but is not limited to those activities which are illegal because of the age of the student. Presence in bars and attendance at parties where drinking of alcoholic beverages or the use of illegal drugs is occurring is prohibited. This is not meant to prohibit presence in establishments that are primarily eating places, Legion hall events, or presence at bars or parties with parents, or presence at family functions where there is adult supervision.

The activities offered in the Gilmanston High School are listed in two (2) categories. The discipline per violation of the code is listed under each category.

Any student who violates the extracurricular code in the summer when school is not in session will still be subject to above disciplinary categories. The Activities Code is in force 12 months of the year.

3. A student is to follow the Gilmanton Board of Education Extracurricular Code on a year round basis, which is a requirement of the WIAA.

4. Students who knowingly attend an illegal alcohol/drug party will be considered in violation of this code. A written report signed by an individual noting the infraction would be required to initiate Preliminary Council action.
